

FERTILIZANTES HERINGER S.A. – UNDER JUDICIAL RECOVERY PROCESS
NIRE 32.3.0002794-6
CNPJ Nº 22.266.175/0001-88

MATERIAL FACT

Fertilizantes Heringer S.A. – Under Judicial Recovery Process ("Company"), in compliance with the terms of article 157, paragraph 4, of Law No. 6,404, of December 15, 1976, as amended ("Brazilian Corporations Law"), and CVM Instruction No. 358, of January 3, 2002, as amended, the Company explains what follows, due to an article published today in the newspaper Valor Econômico, entitled "Divergence with Russians can damage Heringer's Plan".

As is public knowledge, the Company's controllers signed a Binding Letter of Intent with a company of the Uralkali Group with the purpose to sell the Company's control to the referred company. For reasons unrelated to the controllers and the Company, but also due to the reprehensible posture maintained by the Uralkali Group during the discussions of the agreements, the deal was not concluded as intended.

Since then, maintaining the questionable posture adopted during the negotiation period, the Uralkali Group has been acting, judicially and extrajudicially, in a retaliatory manner to, in an absolutely unjustified way, cause harm to the Company, its employees and collaborators, shareholders, creditors and the market in general, in order to take advantage of the momentary financial difficulties of the Company, to, in the end, obtain an undue advantage for itself, forcing the Company to a possible liquidation of its assets for insignificant amounts, which are in no way consistent with its effective value.

Regarding the content of the article, the Company comes public to inform that it vehemently refutes any allegation of irregularities in its financial statements. The Company has been audited for more than 20 years by large international auditing companies (Big Four) without ever having any reservations in its financial statements, what guarantees absolute tranquility regarding the veracity, seriousness

and clarity with which its activities have been exercised throughout its 52 years of existence.

The Company also informs that it is already adopting all the appropriate measures, whether within the scope of its judicial reorganization, or in the civil and criminal scope, in Brazil and England, against the Uralkali Group and its advisors, due to the untruths that have been disseminated, including a clear breach of confidentiality assumed in the contract, in view of the information disclosed by them.

Paulínia, February 6, 2020.
